

MEDICAL BULLETIN – BANANI DOHS MEDICAL HEALTH CARE CENTER

(An information based communique regarding the স্বাস্থ্য পরিচর্যা কেন্দ্র, বনানী ডি ও এইচ এস, to our esteemed stakeholders):

The Novel initiatives:

1. Completely voluntary service given by our Senior Gynaecologist every Monday.
2. Successful installation of an Autoclave: Facilitating surgical dressings, including stitching. As well as, providing definitive patient care using Germ free instruments.
3. Successful introduction of Evidence based scientific treatment: Under a memorandum of understanding (MoU), all Civil Non-entitled (CNE) residents are sending their blood samples to the Internationally reputed & Independence day award winner institution, the AFIP. The cost of each test here is the cheapest, with 100% authenticity.
4. A 24/7 bed ridden elderly patient having minimal & variable cardiac functions, received life saving sub-cutaneous Clexane injection by our staff, based on time-spaced serum Troponin I measurements, done at the AFIP. It's a unique & commendable achievement. The help provided by the staffs of the AFIP, especially it's MWO Sajjad, in providing the instantaneous laboratory reports played a vital role. However we dare not to repeat such ventures in future.
5. Vaccination: For the first time, this health care centre acted as a temporary centre for measles vaccination under the direct help & supervision of the health department of the DNCC North. Although our centre is not a government authorized vaccination centre, the esteemed residents & their dependents often take the help of our paramedics' help in vaccine inoculation.
6. Competent Physiotherapists supervised physiotherapy: By the kind permission & support of our honourable President, two meritorious final year PT students were taking good care of our patients, namely Ms Surma & Mr Himel. Many physiotherapy instruments & aides were purchased.
7. A corporate deal signed with the Universal Hospital (Erstwhile Ayesha Memorial Hospital). Now, with proper ID or Porishod's written recommendations, any of our area dwellers can have health screening, laboratory testing, all outdoor medical cares, including outdoor Cardiac care, & indoor treatment at subsided rates or with discount. Summary of last quarter healthcare report:

a. Total outdoor patients seen:

- (1) Sr Gynaecologist & Centre Doctors: 282
- (2) Taken care of by Paramedics: 695
- (3) Germfree surgical dressings: 19
- (4) Number of patients taking AFIP laboratory support: 18
- (5) Total tests done by Glucometer: 86

b. Physiotherapy at Centre

- (1) Taken care by Physiotherapists: 25
- (2) Given by our Nurse/Paramedic: 23

c. Physiotherapy given at home

- (1) By our Lady Physiotherapist: 07
- (2) By our male Physiotherapist: 03

Immediate future goals:

1. Shifting the Healthcare centre to permanent building very soon.
2. Very soon we hope to get a Dental unit with part time Dental surgeon at the new place.
3. Our own Emergency Ambulance support insha'Allah.

Thank you all for your support & patient reading.

			CytoHispathology
104.	FNAC	400	
105.	Paps smear	330	

Please add 220/ taka to total cost of your desired tests.

উপরের ২২০ টাকার ব্রেক ডাউন এই রকম ২০/ টাকা AFIP স্টেশনারি চার্জ + ২০০ টাকা আমাদের কালেকশন ও ট্রান্সপোর্টেশন চার্জ-

এখন কেউ ১ টি টেস্ট করলেও ২২০ যোগ হবে, আবার ১০ বা ২০ টি টেস্ট করলেও ২২০ যোগ হবে-
তাই বেশি টেস্ট করান সাশ্রয়ী হবে-
এই টেস্ট শুধু নন entitled রাই করাতে পারবেন-
